Temporary relief pertaining to refundable tax credit applications for film and television production services

In the context of the COVID-19 pandemic, SODEC is modifying its procedure for sworn statements (affidavits) to be completed by the copyright owner's official filing representative. Effective immediately and until further notice, SODEC will temporarily accept statements duly signed and dated by the applicant company's official representative without requiring sworn proof of the signature. This temporary relief measure also applies to files currently being studied. SODEC will accept only signed manuscript documents that have been digitized. A document's electronic signature is not acceptable.

Bear in mind that any request for an approval certificate or advance ruling must be submitted on the SOD@ccès secure digital filing portal.
